1. INTRODUCTION

Following the invitation extended to students to apply for membership, Xavier's TechByte Society (XTS) held a recruitment interview on 3 August 2026 at Fr. Proost Hall. The interview was conducted from 8:25 a.m. to 3:00 p.m. in the presence of the society's mentor, the Head of the Department and the faculty members of the Computer Science Department. The drive was primarily meant for freshers, and students from all departments were eligible to apply. A total of 115 students applied through online registration, and interview tickets were sent to the applicants by email.

2. OBJECTIVES

- To assess students' interest in technology and in the activities of XTS.
- To evaluate students' communication skills and their ability to express ideas clearly.
- To gauge the relevant knowledge students bring to the society.
- To observe students' enthusiasm and willingness to contribute.
- To identify students suitable for XTS through a fair and thoughtful selection process.

3. DETAILED PROCEEDINGS

3.1 Calling of Candidates

Attendance of the candidates was marked before the interviews began. Students who had applied for membership were then called in to meet the interview panel. Each interview lasted approximately 15 minutes, and the interviews continued throughout the day, from 8:25 a.m. to 3:00 p.m.

3.2 Panel Interaction

The panel, comprising Dr. Kamaldeep (Mentor), Dr. Swarat Chaudhari (Head of the Department) and the faculty members of the Computer Science Department, interviewed the students and asked them questions. The students responded to the panel, which allowed the members to understand their interests, knowledge and communication. The interaction also gave students the opportunity to present themselves to the faculty and to express their interest in joining the society.

4. OUTCOME OF THE INTERVIEW

At the conclusion of the interviews, the panel reviewed the performance of all the students who appeared before it. Each candidate was assessed on their interest in technology and in the activities of XTS, their communication skills and ability to express ideas clearly, the relevant knowledge they brought to the society, and their enthusiasm and willingness to contribute. Based on the panel's assessment during the interview, 63 of the 115 students who applied were selected for membership of Xavier's TechByte Society. The selection was carried out through a fair and thoughtful process by the mentor, the Head of the Department and the faculty members of the Computer Science Department. The selected students now become members of the society and were informed of the result by email. The panel's combined judgement ensured that the final selection reflected both ability and genuine interest. The interview thus served its purpose of identifying students who are best suited to XTS and most likely to contribute meaningfully.

The selected candidates were placed in the following teams of XTS:

Team	Members Selected
Executive Team	19
Tech Team	25
PR Team	16
Research Team	4
Total team places	64

Note: Vishal Kumar (BCA, 1st semester) has been selected for both the Tech and PR teams, so the 64 team places are filled by 63 students.

5. CLOSING NOTE

The XTS Recruitment Interview gave interested students a structured opportunity to be assessed by the mentor, the Head of the Department and the faculty members of the Computer Science Department. The selected students now join the society, and XTS looks forward to their contribution to its future activities. The interview rejected the society's aim of a fair and thoughtful selection process. The society extends its gratitude to all members of the panel for their time and participation.
